Re: *Cease & Desist Contact With American Cancer Society*

Dear Dr. Enstrom:

Please be advised that Holland & Knight is legal counsel to the American Cancer Society (“ACS”). Kindly direct any and all future communications to my attention. I have instructed ACS to not respond to your letters, emails or calls.

ACS does not have a political agenda, as you falsely accuse, nor does ACS have control over the Biden Administration. There is simply nothing that ACS can do for you. Your communications are causing ACS to spend unnecessary time away from its mission to, among other things, support scientists who have dedicated their lives to finding a cure for cancer. I understand that you have likewise dedicated your life to science. We are thus saddened that you have chosen to threaten ACS, harass its employees and cause resources to be diverted away from the pursuit of a world without cancer.

We ask that you cease and desist any efforts to contact, harass or threaten its employees. In any event, ACS will not be responding to any further communications from you.

Sincerely,

HOLLAND & KNIGHT LLP

By: *Shelley Hurwitz*
