Re: Perfect NASEM Storm re EPA: Zigler-Dominici-Bero vs. Enstrom

Dear Dr. Zigler,

I am writing because of a perfect storm involving two EPA-funded NASEM Committees: The IRIS Committee (<https://www.nationalacademies.org/our-work/review-of-epas-iris-assessment-handbook>), which includes you and Dr. Lisa Bero, and the NAAQS Committee (<https://www8.nationalacademies.org/pa/projectview.aspx?key=52270>), which includes Dr. Francine Dominici. The perfect storm includes Dr. Bero, Dr. Dominici, you, me, and my extensive epidemiologic evidence relevant to both committees and to EPA science and regulations.

On July 22, 2021 I submitted my evidence to the NAAQS Committee (<http://www.scientificintegrityinstitute.org/NASEMJEE072221.pdf>) and it includes my July 8, 2021 Review (<http://scientificintegrityinstitute.org/ESTJEEAdd070821.pdf>). In summary, since May 17, 2003 I have published strong peer-reviewed evidence that air pollution **DOES NOT CAUSE** premature deaths in the US. Rather than accepting the validity of my evidence or identifying errors in it, Drs. Bero and Dominici have played major roles in discrediting it by using unethical tactics. Consequently, extensive NULL evidence by me and others has never been properly considered by EPA regarding IRIS and NAAQS.

In particular, Dr. Bero has engaged in an 18-year defamation campaign against me and my research (<http://www.scientificintegrityinstitute.org/BeroJEE072021.pdf>) and this defamation campaign played a major role in the wrongful termination of my long-term UCLA faculty position (<http://scientificintegrityinstitute.org/French052112.pdf>). Dr. Dominici has deliberately falsified the research record regarding air pollution deaths in the US by NEVER citing NULL findings like mine. Also, she has been misusing confidential Medicare records on 69 million elderly Americans in order to repeatedly publish ecological epidemiology pseudoscience that is designed to influence EPA policy (<http://www.scientificintegrityinstitute.org/NatureJEE072721.pdf>).

Thus, I request your assistance in removing Drs. Bero and Dominici from the above NASEM Committees. Please contact me and I will explain specific appropriate actions that you can take.

Thank you very much for your cooperation and assistance.

Sincerely yours,

James E. Enstrom, PhD, MPH, FFACE
Retired UCLA Research Professor (Epidemiology)
President, Scientific Integrity Institute
