Tom,

Dr. Enstrom is in the Academic Research series, and his appointment has been based in the Dean's Office since 1976. For programmatic reasons, it is no longer possible to support academic appointments through the Dean's Office, and I have informed Dr. Enstrom that he must find a Departmental home within the School. I would appreciate your meeting with him to explore the possibility of moving his appointment to the Department of Health Services.

Jerry

Curt,

I'm not sure that this introduction is necessary, but Dr. Enstrom is in the Academic Research series, and his appointment has been based in the Dean's Office since 1976. For programmatic reasons, it is no longer possible to support academic appointments through the Dean's Office, and I have informed Dr. Enstrom that he must find a Departmental home within the School. I would appreciate your meeting with him to explore the possibility of moving his appointment to the Department of Environmental Health Sciences.

Jerry
