

Recommendation From Ad Hoc Subcommittee on the District's PM2.5 Plan

San Joaquin Valley Air Pollution Control District
Citizens Advisory Committee
November 6, 2018

CAC PM2.5 Plan Ad Hoc Subcommittee

- CAC ad hoc subcommittee met on October 30, 2018
- Members in attendance:
 - Manuel Cunha
 - Roger Hoffdahl
 - Kevin Abernathy
 - Kelly Deming
 - Lee Smith
 - Derek Williams

CAC PM2.5 Plan Ad Hoc Subcommittee Recommendation

- Upon review of the proposed PM2.5 Plan, the subcommittee recommends that the CAC support the District adoption of the PM2.5 Plan, contingent upon securing the necessary funding called for under the Plan. Given the significant need for new funding in the PM2.5 Plan, we appreciate ARB's strong position that new funding be identified and directed to the Valley and District for implementation of new incentive programs. The subcommittee recommends that the District work diligently with EPA, CARB, Valley stakeholders, and state and federal legislators to secure the necessary state and federal funding, including ongoing sustained funding. Upon approval of the PM2.5 Plan by the District Governing Board, the subcommittee also recommends that the CAC support the CARB Board moving forward with adoption of the San Joaquin Valley PM2.5 Plan as currently scheduled for their January public hearing.
