September 14, 2012

Dear Dr. Soret,

I am resending my August 23, 2012 email message in case you did not receive it. Please address the issues raised in my August 23, 2012 email message and in my August 30, 2012 comments to AQMD on the Draft 2012 AQMP Health Effects (<http://www.scientificintegrityinstitute.org/AQMP083012.pdf>). In particular, please address my comments about AHSMOG and you, as a member of the 2012 AQMD Advisory Council.

In addition, I formally request the results for the relationship (RR with 95% CI) of total mortality (ALL causes of death) to PM2.5 and PM10 in the AHSMOG cohort, with separate RRs for males, females, and both sexes and for three follow-up periods (1977-1992, 1993-2006, and 1977-2006). If possible, please use the format of my August 15, 2012 summary of the relationship between PM2.5 and total mortality in California (<http://www.scientificintegrityinstitute.org/Enstrom081512.pdf>).

Because of related deadlines, I request some type of response from you before September 20, 2012. Unless I receive a response from you stating otherwise, then I will assume that your July 11, 2012 email message to AQMD Health Effects Officer Jean Ospital on the Draft 2012 AQMP Appendix I Health Effects constitutes what you consider to be a complete and proper peer review of the "report on the health impacts of particulate matter air pollution in the South Coast Air Basin," as per California Health and Safety Code Section 40471 (b) (<http://www.leginfo.ca.gov/cgi-bin/displaycode?section=hsc&group=40001-41000&file=40460-40471>).

Thank you very much for consideration of this important request. To better understand the importance of the 2012 AQMP, please read the August 31, 2012 Southern California Business Coalition (SCBC) comment letter to AQMD (<http://www.scientificintegrityinstitute.org/SCBC083112.pdf>).

Sincerely yours,

James E. Enstrom, Ph.D., M.P.H.

ssoret@llu.edu

Dear Dr. Soret,

I am an epidemiologist at UCLA who is interested in the health effects of air pollution. I am writing regarding the South Coast Air Quality Management District (AQMD) Draft 2012 Air Quality Management Plan (AQMP) (<http://www.aqmd.gov/aqmp/2012aqmp/index.htm>). I notice that you, as a member of the 2012 AQMD Advisory Council, submitted comments and articles regarding AQMP Appendix I "Health Effects" (<http://www.aqmd.gov/aqmp/2012aqmp/draft/Appendices/AppxI.pdf>). Please let me know if you are aware of any additional evidence relevant to the health impacts of particulate matter air pollution in the South Coast Air Basin that is not already mentioned in Appendix I and that should be brought to the attention of AQMD before it finalizes the AQMP.

Thank you very much for your prompt consideration of my request.

Sincerely yours,

James E. Enstrom, Ph.D., M.P.H.
