The Honorable John A. Perez
Speaker of the Assembly
California State Assembly
State Capitol, Room 219
Sacramento, California 94249-0046

Dear John:

Thank you for your letter of September 13 requesting the University recommend at least three candidates for possible appointment to the Scientific Review Panel on Toxic Air Contaminants, to replace resigning member Michael Kleinman in the area of toxicology. I understand your request was made pursuant to your role as an appointing authority under Section 39670 of the California Health and Safety Code, which specifies that members of the Panel are to be appointed from a pool of nominees submitted to the appointing authority by the President of the University of California.

I am happy to provide you with the names of new potential candidates in the area of toxicology. ~~Included on the list are both those who have served on the Panel in the past and those who have not previously served.~~ These individuals are scientific experts who hold academic appointments at universities in California, as specified by statute, and are judged to be well-qualified scientifically.

The University has reviewed their scientific credentials and their self-reported disclosures they deem relevant to service on the Toxic Air Contaminants Scientific Review Panel. I understand that these individuals will also be subject to an interview and vetting process administered by your office. Please do not hesitate to get in touch with me if additional information is needed.

With best wishes, I am,

Sincerely yours,
